

PROFILE

"Highly motivated B.Tech Chemical Engineering student with a strong academic background in chemical principles and process design, demonstrated through hands-on experience in laboratory research and project work. Skilled in process simulation software and eager to apply theoretical knowledge to solve real-world chemical engineering challenges with a focus on sustainability and safety compliance."

EDUCATION

SRM Institute of Science and Technology Kattankulathur, Chengalpattu.

2022-2026

B.Tech Chemical Engineering | CGPA: 7.07/10

ST Joseph's Matriculation Higher Secondary School

2022 | 12 Grade | Percentage : 82.17

2020 | 10 Grade | Percentage : 83.6

TECHNICAL SKILLS

- MATLAB
- AUTOCAD(Tools)
- Heat Transfer
- Mass Transfer
- Chemical reaction engineering
- Process design and simulation.e.g.,(Aspen plus, HYSYS)
- Unit operation (distillation, extraction, filtration)

CERTIFICATIONS

- Completed the Networking Basics Course .
- Successfully Completed the 10 weeks course on AI-ML Virtual Internship which is Organised by AICTE and Eduskills Team.

PROFESSIONAL EXPERIENCE

Internships

- June 2024 - Dalmia Cement Bharat Limited, Dalmiapuram, Tiruchirapalli.
- (Interns engage in various projects, gaining insights into operational processes, quality control, and performance management. Participants often report a supportive work environment and valuable mentorship opportunities)

Conferences & Workshops

- Attended the 3 HOURS LIVE WORKSHOP on " Chatgpt and AI Tools ", Organized by the "Mr. JATAN SHAH" Microsoft certificate Trainer, in Skill Nation.
- SDG 10 - Conference on challenges and solutions for SDG in educational Institutions.
Participated in "Smart India Hackathon" which is Organised at SRM Institute of Science and Technology .

Volunteer

- CHEMFLUX 11.O -Volunteer
- SRMist - NSS Volunteer
